

McKinley STEAM Academy PTA

While there are many questions as to what this school year will look like, one thing we know for sure is that we want to be able to support our teachers and students in any way possible. PTA events and opportunities will look different this year but we are active and planning to do as many things as we can.

We are still collecting memberships, holding meetings (as allowed) and requesting monetary donations in order to support our teachers/staff this year. The PTA One Fund is the name of the annual fundraising program established to give support to the activities at McKinley STEAM Academy. It is currently the PTA's only fundraiser.

PTA One Fund helps to support: 8th grade party, snacks during spring assessments, grounds beautification, staff appreciation, and special projects. These and other miscellaneous PTA programs support the welfare of your children, school, and community.

Please consider a PTA Membership.

The \$10.00 per member fee supports National, State, City and the McKinley PTA membership.

Please consider donation to the McKinley PTA One Fund

Your donation is tax-deductible and will help support our staff and students. Donations are extra important this year as we want to be able to provide hand sanitizers, extra masks and anything else the staff might have a need for in order to take extra precautions to keep our students and staff safe this year. In addition, staff appreciation events will look different as we will likely have to provide boxed or individual meals instead of the potluck-type meals we've provided in the past. Showing our staff how much we appreciate them will be even more meaningful to show our appreciation for the extra precautions they are taking to keep our students safe.
